

Clinical Incubator

Model: L-CU100

- UNICO CLINICAL INCUBATOR
- 10L CHAMBER CAPACITY
- REMOVABLE SHELVE
- TEMPERATURE AMBIENT TO 70° C
- POWER INPUT 110 VOLT

The L-CU100 Laboratory Incubator is a compact and reliable unit designed for a variety of incubation applications in research, clinical, and educational settings. With a 10-liter capacity, it's ideal for smaller-scale experiments and applications where space is limited. The incubator features precise digital temperature control and a clear LED display, allowing for accurate temperature setting and monitoring. Its 110V power input makes it suitable for standard North American electrical systems. The L-CU100 provides a stable and controlled environment for cell cultures, microbiological studies, and other temperature-sensitive applications.
