demanding laboratory environments, including clinical labs, physician's offices, and various chemical, industrial, or biological settings. This robust centrifuge features a six-place rotor, designed for standard 5-10 ml tubes, and can accommodate 2 ml and 4-5 ml tubes with optional adapters. It can also handle up to three 15 ml tubes. With a fixed speed of 3,400 RPM ± 150 RPM, the C806 ensures efficient separation of blood and other materials. It is equipped with a dependable mechanical 30-minute timer and a bell signal to alert you when the run is complete. The high-impact plastic housing guarantees long-term durability, while the safety switch in the lid stops the motor when the lid is opened. The unit also includes a power indicator light to show when it's in operation. Compact yet powerful, the C806 measures 10.2 inches in width, 11.8 inches in depth, and 8 inches in height, weighing 15 lbs. This centrifuge is an ideal choice for labs requiring a reliable and durable separation solution.
